

# High & Low Pressure Misting Fans

## Low Pressure Misting Fan • Fill it up; plug it in; beat the heat!

The VersaMist® portable person cooler combines low pressure mist and high speed air movement to create cool comfort indoors or out for athletes, rescue squads, firemen, construction workers, assembly line workers, tents, patios, pool decks and other hot spots.

### Features & Benefits

- 18" UL507 rated, imported 3-speed fan; up to 6600 cfm.
- 1.4 Tons (16,000 BTU/hour) of cooling capacity.
- Cools the air up to 30°F.
- Large 10 gallon reservoir allows 5 hours of continuous use.
- Low pressure mist pump enclosed in rugged enclosure with tip switch.
- Runs on 115V; 12V and 220V models available.
- Includes 25' outdoor-rated power cord with integrated GFCI.
- Also available with matching cart and telescoping fan mount for greater flexibility and convenience (Model PVM18C.)
- Two-year limited warranty.
- Made in the USA.
