

# BERKELEY® B6XT CENTRIFUGAL PUMPS

The new standard in  
full-performance reliability

## Features / Benefits

### ▶ Double-volute case

Precise geometry for excellent hydraulic efficiency, range and reduced bearing loads which significantly extends bearing life.

### ▶ Designed for durability

State-of-the-art design (utilizing double-row, angular-contact and deep-grooved radial ball bearings) delivers 20,000 hours of bearing life, one of the industry's longest life cycles.

### ▶ Large casting feet

Provides rugged and stable support for pump end.

### ▶ SAE #2 or #3 engine versatility

Pre-drilled mounting holes allow for maximum engine-choice flexibility.

### ▶ Severe-duty elastomeric coupling standard

Extends the life of the pump and is capable of handling a wide range of horsepower.

### ▶ Internal-hydraulic thrust control

Bearing stress and load are reduced to allow for increased bearing life.

### ▶ Extra-wide performance range

True application versatility that ranges all the way up to a 15-1/2" impeller at 1,800 rpm.

### ▶ Dual access packing area

Large opening is easily accessed on either side for improved serviceability.

### ▶ Rigidly-supported thrust bearing

Extended dependability with minimal maintenance.

# BERKELEY® B6XT CENTRIFUGAL PUMPS

Double-volute case

State-of-the-art design & large casting feet

Pre-drilled mounting holes & Severe-duty elastomeric coupling standard

## Pump Performance @ 1,800 RPM

## BEC

**BEC: a Berkeley advantage** - Berkeley's Electronic Catalog (BEC) puts powerful pump specification, application and installation software right at your fingertips 24 hours a day, every day via the internet. At no charge or obligation, BEC can either be used interactively on the internet or the software can be downloaded from our website.
